

# Uneeda Enterprizes, Inc.

## EKASILVER

**A pliable sanding tool for hand sanding.**

Ekasilver is a silicon carbide material designed for hand as well as portable machine sanding. It's stearate coating along with the open grain reduces clogging issues. The stearament also contributes to the surface finish. Ekasilver is available in both discs and sheets.

**Why Uneeda?** With over 100 years of combined expertise in the abrasive industry and our complete dedication to technical support, we are sure you will be delighted with our materials, superior customer service and prompt deliveries.
