

EKASILK PLUS

THE MOST ADVANCED SYSTEM FOR SANDING CURVED & PROFILED SURFACES

Uneeda's new **EKASILK PLUS** is the most advanced system for sanding curved and profiled surfaces. The EKASILK PLUS System is also extremely well suited for flat panels and any other surface which requires hand sanding or finishing.

- Replaces hand sanding on intricate profiles and flat surfaces
- Reduces labor costs by up to 50%
- Outlasts conventional sheets & discs by 10 to 1
- Optimized for Ekasand machines

THE EKASILK PLUS SYSTEM

EKASILK PLUS SPONGES

EKASILK PLUS sponges are washable and reusable. The hook & loop system is specifically designed to be used with EKASAND pneumatic sanding machines. EKASILK PLUS sponges yield superior life compared to conventional sheets and discs and increase sanding efficiency by up to 50%. And thanks to foam backing, they adapt to any contours, curves, edges, and curved shapes.

Sizes	Thickness	Grit
5" Disc	5mm / 1/2"	Medium/Fine/Very Fine/Super Fine
6" Disc	5mm / 1/2"	Medium/Fine/Very Fine/Super Fine
3" x 4"	5mm / 1/2"	Medium/Fine/Very Fine/Super Fine
3-2/3" x 7"	5mm / 1/2"	Medium/Fine/Very Fine/Super Fine

EKASAND PNEUMATIC ORBITAL SANDING MACHINES

EKASAND machines are very light and have a very low center of gravity which greatly increases operator control and minimizes repetitive motion injuries. Running at 12,000 RPM with an aluminum housing, the EKASAND machines are extremely powerful and durable.

UNELEVEL HOOK & LOOP SHEETS

Available as paper (EKABLUE) or film (UAOFG) in a wide variety of grits, Uneeda's Uneevel sheets complement the EKASILK PLUS sponges to offer a more aggressive sanding option when required.

INTERFACE PADS

Rubber and foam interface pads are used with both the EKASILK PLUS sponges and Uneevel sheets to offer additional flexibility when sanding profiles and raised panels. Our pads are unique in allowing the operator to sand deep into profiles while lightly sanding the profile edges to avoid any damages.
