The Total Sanding Concept

EKASTORM

EKASTORM is designed for sanding of wood and other resinous materials. With a strong and flexible C-Weight paper backing, it is suited for all flat and curved surfaces.

EKASTORM is coated with durable Aluminum Oxide grain in a semi-open configuration yielding superior life. A special Anti-Clogging treatment reduces heat and minimizes loading to produce an optimal finish.

EKASTORM sheets are available in grits #80 through #600.

Grain	Aluminum Oxide
Backing	C-Weight Latex Paper
Bonding	Resin over Resin
Coating	Semi-Open
Application	Sheets

Uneeda Enterprizes, Inc., established in 1967, has been built with a commitment to selling the highest quality products, providing unmatched customer service, technical support and the best overall value for every dollar spent.

Uneeda does not want to be just another abrasive supplier.

We strive to offer our customers "The Total Sanding Concept".
