## SAFETY DATA SHEET FOR COATED ABRASIVES

---

### 1. PRODUCT

RKJFN

---

### 2. INGREDIENTS

#### 2.1 ABRASIVES

- Syntethic corundum (aluminium oxide)
  - Silicon carbide
  - Zircon corundum (zirkon oxide + aluminium oxide)
  - Others
- 

#### 2.2 COATING SUPPORT

- Paper
- Cotton cloth
- Polyester cloth
- Combination paper/cloth
- Vulcanised fibre
- Others

#### 2.3 BOND

##### 2.3.1 BONDING AGENT

- Glue (Natural material derived from plant or animal)
- Polymerized thermosetting resin
- Others

*Registered Office*

Ekamant Production AB

- Calcium carbonate
- Kaoline
- Kryolite
- Others

## 2.4 OTHER INFORMATION

Extra coating with stearat.

---

### 3. PHYSICAL PARTICULARITIES

- Partially soluble in water
- Insoluble in water (waterproof)
- 

### 4. STORAGE AND FIRE PROTECTION

- Store at 20 °C ( $\pm$  5 °C) and at 50-65% relative humidity
- Not included within the "dangerous products"
- The coating and the bonding are combustible

Particular safety measure are not necessary. In case of fire, foam carbon oxide or extinction dust can be used for extinction

---

### 5. PROTECTION AT WORK

- Adequate dust extraction should be provided and appropriate protective clothing worn.
  - Directive for the protection of workers and the recommendations so machine manufacturers as well as the directives for the prevention of accidents should be followed.
- 

### 6. WASTE DISPOSAL

- Federal, State and Local laws should be followed.
- 

### 7. OTHER CONSIDERATIONS

- None
- See over
-
