

ARSFEO

WIDE BELTS

ARSFEO

THE MATERIAL OF CHOICE FOR SANDING SOFTWOODS

UNEEDA

ARSFEO was primarily designed with pine and spruce wood species in mind. Both of these species have a natural high resin content and various degrees of hardness. The open coat silicon carbide grain pattern allows for sanding through the resinous wood without clogging and delivers a uniform finish throughout the sanded piece. Use in combination with higher grits ARSFEO to achieve the perfect finish.

ADVANTAGES

- Antistatic technology
- Superior finish
- Longer abrasive life
- Reduce clogging on softwoods

TECHNICAL SPECIFICATIONS

Backing:	F-weight paper
Grain:	Silicon carbide
Bonding:	Resin over resin
Color:	Black
Coating:	Open

WOOD APPLICATIONS

- HARDWOOD
- SOFTWOOD
- PARTICLE BOARD

INDUSTRIES

WOOD

ALSO AVAILABLE IN

- NARROW BELTS
