SAND COOLER, SAND FASTER, SAND BETTER

UNEEDA

This revolutionary abrasive material was designed with rhomboidal coating technology. This unique pattern dramatically reduces friction during the sanding process by allowing heat to dissipate much faster and dust be extracted more efficiently through the grooves of the pattern. Loading is diminished, abrasive longevity is increased and therefore waste is minimized. This new material provides the ideal solution to save on costs and contributes to a lower environmental impact.

## ADVANTAGES

- Superior finish
- Longer abrasive life
- Minimized loading
- High cost/efficiency ratio

## TECHNICAL SPECIFICATIONS

<b>Backing:</b>	F-weight paper
<b>Grain:</b>	Aluminum oxide
<b>Bonding:</b>	Resin over resin
<b>Color:</b>	Blue
<b>Coating:</b>	Special

## WOOD APPLICATIONS

- HARDWOOD
- SOFTWOOD
- LACQUER
- PARTICLE BOARD

## INDUSTRIES

WOOD

## ALSO AVAILABLE IN

- NARROW BELTS
